Intensive Wrinkle Lotion

ERASE THE YEARS, KEEP THE MEMORIES

Women today, while rejecting drastic surgical methods, are seeking more natural cosmetics to retain and enhance their youthful looks.

The beauty routine established now while you are young will determine what you see in the mirror when you are 50! Now is the time to start an anti-wrinkle campaign.

SISEL Intensive Wrinkle Complex contains peptide ingredients. Peptides are chains of amino acids that act as messengers throughout the body. Peptides play a key role in turning on collagen production. Sufficient collagen is crucial for a

youthful look because a significant portion of skin is made of collagen. Aging causes a decrease in the amount of collagen in the skin.

By hydrating and conditioning your skin today, you will lessen future signs of aging. Intensive Wrinkle Lotion contains ingredients that will diminish the appearance of fine lines and wrinkles that may already be starting.

If you already have problem areas (forehead, around the eyes, smile lines), apply SISEL's Ultra Intensive Wrinkle Complex.

INGREDIENTS: Aqua, Ethylhexyl Palmitate, Oryza Sativa (Rice) Bran Oil, Butylene Glycol, Acacia Senegal Gum, Glyceryl Stearate, Galactoarabinan, Silica, Caprylic/Capric Triglyceride, Cetyl Alcohol, Sodium Stearoyl Lactylate, Xanthan Gum, Hydrolyzed Rhizobian Gum, Benzyl PCA, Phenoxyethanol, Tribehenin, Fragrance, Sorbitan Isostearate, Lavandula Stoechas, Caprylyl Glycol, Acetyl Octapeptide-3, Palmitoyl Oligopeptide.

DIRECTIONS:

INTENSIVE WRINKLE LOTION

To maintain a youthful look, begin now by applying lotion to face, neck and décolleté area and massage into skin.

keep looking
as young as
you feel.

Have you tried SISEL's other Anti-Aging Products?
