DIRECTIONS:

ULTRA INTENSIVE WRINKLE COMPLEX

Apply morning and evening on a clean face. Hold the container close to your fingers as you begin to pump. Gently press and pat the cream into your face, especially in areas where wrinkles may be forming. You may feel a tightening effect from the peptide combinations. If so, adding a moisturizing cream may be helpful.

ULTRA INTENSIVE WRINKLE PEN

Pump several times to get the formula to express. If you are not able to wash your hands prior to use, place applicator directly around eyes or on expression lines and gently press formula onto skin. Do not twist, just press down to get formula to express.
